1 EXPLORE

WORK SMARTER

Functionality is key to the Ford Transit Connect. So, you'll find a versatile and easily-accessible loadspace, a choice of wheelbase lengths and a comfortable driving environment, all wrapped in a bold, stylish shape.

Designed from the very start as a hard-working commercial vehicle, Transit Connect combines legendary Ford Transit toughness with innovative features and advanced technologies, to help you stay connected and in control.

Transit Connect Van Active L2 in Frozen White solid body colour with 17" 5-spoke Absolute Black alloy wheels (standard) and Van Limited L1 in Chrome Blue metallic body colour (option) with 16" 5x2-spoke Sparkle Silver alloy wheels (standard).

DRIVING CONFIDENCE

MECHANICAL LIMITED SLIP DIFFERENTIAL

Transit Connect's mechanical limited slip differential can help reduce unwanted wheelspin, especially on loose surfaces. By automatically directing torque to the wheel with the most grip, it enhances Transit Connect's front-wheel drive capability and delivers even greater levels of traction, stability and composure in more challenging conditions. (Option)

Transit Connect Van Active L1 in Solar Silver metallic body colour with 17" 5-spoke Absolute Black alloy wheels.

1 EXPLORE

TAKE CONTROL

YOUR OFFICE ON THE ROAD

Spend just a moment in Transit Connect's comfortable, well-crafted cabin and you'll know that it was built for you. All the controls are logically placed and incorporated into the overall design of the interior, helping to make every action smooth, intuitive and efficient.

As well as being both practical and durable, its clever design provides plenty of useful storage too. And with a range of smart technologies at your fingertips, including the latest available Ford SYNC 3* (standard on Active, option on other series), Transit Connect can happily serve as your connected mobile office.

*Don't drive while distracted. Use voice-operated systems when possible; don't use handheld devices while driving. Some features may be locked out while the vehicle is in gear. Not all features are compatible with all phones.

Transit Connect Van Limited L1 with Ligne in Dark Palazzo Grey and Marl/City Fabric in Ebony bolster.

1 EXPLORE

MEET YOUR PHONE'S NEW BEST FRIEND

FORD SYNC 3

Available Ford SYNC 3 integrates seamlessly with your smartphone, letting you control everything from phone calls and text messaging to music and satellite navigation – all via the 6" touchscreen or through remarkably simple voice commands*. Map updates help to keep you on track and on time, and are complimentary for a limited period following vehicle registration. (Option with Navigation)

SYNC 3 FEATURES*

- Manage your phone, music, apps and navigation with simple voice commands
- Hear your text messages read aloud for you
- Emergency Assistance† helps occupants place an emergency call to provide emergency services with the vehicle location in their respective language
- Control SYNC-compatible apps with AppLink, while Apple CarPlay and Android Auto let you navigate your smartphone through the SYNC 3 home screen, as if it were your handset
- Colour touchscreen supports multi-touch 'swipe' and 'pinch-to-zoom' gestures

Please note: Full SYNC 3 smartphone integration is only available with iPhone 5/Android 5.0 (Lollipop) or higher. Some SYNC 3 functions require a data connection, so mobile data charges will apply. To check whether Apple CarPlay and Android Auto are available in your market, please check their official websites for the latest information.

*Don't drive while distracted. Use voice-operated systems when possible; don't use handheld devices while driving. Some features may be locked out while the vehicle is in gear. Not all features are compatible with all phones.

†Ford Emergency Assistance is an innovative SYNC feature that uses a Bluetooth®-paired and connected mobile phone to help vehicle occupants initiate a call to the local Communications Centre, following a vehicle crash event involving an airbag deployment or fuel pump shut off. The feature operates in more than 40 European countries and regions.

1 EXPLORE

100% CONNECTED

Only Ford can deliver a fully-connected ecosystem that's built-in from the start. Ford has a comprehensive suite of connected services to help your business thrive, no matter how many vehicles you own.

FORDPASS PRO

Whether you work with one business vehicle or manage up to five, FordPass Pro gives you the tools you need to help keep them healthy, secure, and running smoothly.

- **Quick Setup** Use your phone's camera to add up to five vehicles to your account through the app using the vehicles' VIN numbers
- **Health Alerts** Receive notifications for key vehicle health information such as oil life and tyre pressures
- **Fleet Health on Map** Check the location and health status of all of your vehicles on a single map at the start and end of the working day
- **Remote Lock and Unlock** Zonal Unlocking lets you control the cabin and load doors separately. So you can allow someone access to the cabin while keeping your load compartment secure
- **Remote Start** Get your fleet ready for business at the start of the day and even heat or cool the cabin as required (models with automatic transmission only)
- **SecuriAlert** A heightened state of security over and above your vehicle's alarm system. SecuriAlert will notify you if it detects someone trying to access your vehicle, even with a stolen or duplicated key
- **Roadside Assistance** Keep your fleet up and running with roadside assistance when you need it
- **Online Service Booking** Check your Dealer's availability and book your service directly via the app

Download **FordPass Pro** from the App Store or get it on Google Play.

FORDPASS CONNECT

- **Live Traffic**** Sends up-to-date traffic information directly to the SYNC 3 Navigation system. The technology then adjusts the recommended route based on the traffic conditions, so you waste less time on the way to your next job
- **Local Hazard Information**** Uses multiple local and national information sources to warn you of hazards on the road ahead
- **On-board Wi-Fi***** With speeds of up to 4G, on-board Wi-Fi enables mobile working for up to 10 devices. You can even use the hotspot from up to 15 m outside the vehicle for more efficient mobile working when you get to the site

FORD PRO TELEMATICS ESSENTIALS

Ford Pro Telematics Essentials is a complimentary service for vehicles fitted with a FordPass Connect modem. Receive real time vehicle health alerts with suggested actions. Review service history and customised maintenance schedules. Connect to FORDLive to share data directly with your Ford authorised dealer for faster, smarter repairs.

FORD PRO TELEMATICS†

With Ford Telematics and FordPass Connect you can easily view data and manage all your vehicles using our intuitive user dashboard. Receive data on multiple vehicles including: vehicle health, vehicle location, fuel usage and driving characteristics. The information is presented with actionable insights that deliver the data you need to manage your fleet.

FORD PRO DATA SERVICES‡

With Ford Data Services and FordPass Connect you can receive vehicle data securely to either your own telematics application or via your chosen Telematics Service Provider. Data available includes: vehicle health, vehicle location, fuel usage and driving characteristics, and can be received on multiple vehicles. Data can be integrated with your existing in-house application or your chosen Telematics Service Provider.

Note If you operate up to five Ford vehicles you should use FordPass Pro. If you have more than five vehicles, then we recommend using Ford Data Services[‡] and Ford Telematics[†].

Note FordPass Pro is a free app, compatible with select smartphone platforms and is available via download. Future features may be chargeable and message and data rates may apply.

******Live Traffic and Local Hazard Information access is complimentary for 12 months following the registration of a new Ford featuring SYNC 3 Navigation; thereafter a subscription is payable. Local Hazard Information is subject to availability at time of purchase.

*******Wi-Fi hotspot (up to 4G LTE) includes a complimentary wireless data trial for a limited time only that begins at time of activation. Afterwards, data bundles can be purchased from Vodafone. Please refer to their website for details of their data packages. To take advantage of the built-in Wi-Fi hotspot capability, Ford vehicles must come with the appropriate hardware, and a data plan is required. Data coverage and service is not available everywhere and terms of your data plan, including applicable message and data rates, may apply.

Note New vehicles with feature bundle 4 (SYNC 3) may not have Wi-Fi hotspot.

[†]Ford Pro Telematics and Ford Pro Data Services are available for Ford vehicles with a FordPass Connect modem or a Ford plug-in modem. Fleet/business customers only. Subscription charges and Ford Connected Service terms and conditions apply.

Note Ford Pro Telematics Essentials is available for Ford vehicles with a FordPass Connect modem. Fleet/business customers only. Complimentary service, terms and conditions apply.

Note FordPass Pro is available in selected markets. Please see your Ford Dealer for details.

1 EXPLORE

LOAD IT

EASY ACCESS FOR LOADING AND UNLOADING

Transit Connect Van provides an impressive 2.9 cubic metres of loadspace in the short wheelbase (L1) version behind its full-height, full-width glazed or unglazed steel bulkhead. The long wheelbase (L2) model offers up to 3.6 cubic metres*.

Wide-opening rear doors and side load door (option on Van Leader) are optimised for their opening heights, and combine with a low floor height for effortless access to the loadspace.

- **180-degree opening rear doors** can be securely latched at 90-degrees for safer working in high winds, or when loading on a sloped surface (standard)
- **Load-through bulkhead** provides floor-level access to the additional storage space beneath the front passenger seat. This allows you to transport longer items, such as pipes or posts of up to 3.0-metres in length in L1 Van, or 3.4-metres in L2 Van (option)
- **Sliding kerb side load door** offers easy access to the loadspace (option on SWB Van Leader)
- **Twin sliding side load doors** for even greater loading versatility (option on Van, standard on Double Cab-in-Van)

*Cargo and load capacity limited by weight and weight distribution.

Transit Connect Van Limited L1 in Solar Silver metallic body colour (option).

Vehicle shown features accessories and options, available at extra cost.

BIG ON SPACE, BIG ON CHOICE

OPTIMISED LOADSPACE

Choose from two wheelbase lengths and three bodystyles to create a load capacity from 1.2 cu.m to 3.6 cu.m[†], with potential payloads of up to 982 kg*:

- Full-height, full-width glazed or unglazed steel bulkhead (Van)
- Full-height, full-width mesh bulkhead (Double Cab-in-Van)
- Load-through bulkhead can accommodate 3.4-metre long items (L2 Van), or 3.0-metre long items (L1 Van) (option in conjunction with dual passenger seat)
- Room for up to four 8'x4' boards (L2 Van)
- Sliding kerb side load door (option on SWB Van Leader)
- Twin sliding side load doors (option on Van, standard on Double Cab-in-Van)
- Single front passenger seat (Van)
- Two first row seats and three second row seats (Double Cab-in-Van L1)

3.0 m/3.4 m

Load length with load-through bulkhead

Carry items up to 3.0 metres long in the L1 Van with the ingenious load-through bulkhead. L2 models can hold 3.4-metre long items. (Option)

[†]SAE method.
*Maximum payload varies and is based on accessories and vehicle configuration. See label on door jamb for carrying capacity of a specific vehicle.
**Figures shown are van bodystyle, please see specifications table for additional information.

EASY LOADSPACE ACCESS

Access to the flexible loadspace is easy, thanks to wide-opening doors and a low loading height.

A: 615** mm (L1)/833** mm (L2)
B: 1,249** mm
C: 1,114** mm

250,000 DOOR SHUTS

We opened and closed the doors over 250,000 times in non-stop endurance tests to help ensure they will never let you down.

LOAD UP AND GO

PEOPLE, CARGO OR BOTH

The versatile Ford Transit Connect Double Cab-in-Van offers comfortable seating for up to five people, plus cargo space for tools, equipment or goods. Dual sliding side load doors make it easy for your work crew to get in and out, while wide-opening, glazed rear cargo doors provide unrestricted access to the generous loadspace.

With its resourceful character, the adaptable Transit Connect Double Cab-in-Van provides the transport flexibility your business demands.

*Vehicle shown features accessories, available at extra cost.
Transit Connect Double Cab-in-Van L2 in Solar Silver metallic body colour (option).*

1 EXPLORE

MAXIMUM VERSATILITY

TRANSIT CONNECT DOUBLE CAB-IN-VAN

If moving people and their tools or belongings is your business, then Transit Connect Double Cab-in-Van is versatile enough to keep up with everything that comes your way.

Its comfortable five-seat crew cab and adaptable loadspace mean you can take your work team on site with their tools and equipment stored safely behind the movable mesh bulkhead. It also offers the added flexibility of being able to fold or remove the rear seats to maximise the loadspace when transporting bulky tools, equipment or goods*.

- **Easy access** to the rear seats is provided through the wide-opening sliding side load doors (standard)
- **Flexible rear seats** can tumble forward or be removed entirely for maximum loadspace
- **Movable mesh bulkhead** separates the passenger compartment from the loadspace (standard)
- **Dual rear cargo doors** provide easy access to the rear of Transit Connect's loadspace (standard)
- **Glazed rear tailgate** is available as an option

*Cargo and load capacity limited by weight and weight distribution.

Transit Connect Double Cab-in-Van Trend L2 with Capitol in Ebony/City Fabric in Ebony.

1 EXPLORE

DRIVING EXPERIENCE

Transit Connect comes with a range of advanced technologies designed to enhance your driving experience. From Intelligent Speed Assist with Traffic Sign Recognition⁽²⁾ that can automatically detect the current speed limit (when activated) and then adjust your maximum speed setting to that limit, to Distance Indication⁽²⁾ that displays the distance to the vehicle ahead, Transit Connect enables you to concentrate on the road ahead.

Intelligent Speed Assist with Traffic Sign Recognition⁽²⁾

Detects speed limits, including variable limits, and no-overtaking signs via the forward-facing camera and shows them in the cluster display. Intelligent Speed Assist uses the information to help you keep within the prevailing speed limit⁽¹⁾. (Option)

Distance Indication⁽²⁾

An instrument cluster display continuously indicates the distance to the vehicle in front. The system illuminates a system of coloured icons depending on the proximity settings you've chosen. Distance Alert can notify you with a red warning symbol if you get too close to the vehicle ahead. (Option, part of Pre-Collision Assist)

Cruise control with Adjustable Speed Limiter⁽²⁾

Set your desired speed and the system will maintain the pace until it's deactivated via a button on the steering wheel, or by pressing the clutch or brake pedal. Adjustable Speed Limiter is particularly helpful in towns and cities. It lets you set your chosen maximum speed and the vehicle then stays within that limit so you can keep your eyes on the road. When you need to go faster, just press the accelerator firmly to override the system. (Standard on Limited, Sport and Active, option for other series)

⁽¹⁾Uses sensors. ⁽²⁾Driver Assistance feature.

Note Driver-assist features are supplemental and do not replace the driver's attention, judgement and need to control the vehicle.

⁽¹⁾Speed limit may vary according to road and vehicle size. Driver is responsible for adhering to the speed limit at all times.

Transit Connect Van Limited L1 with Ligne in Dark Palazzo Grey/Marl and Dark Palazzo Grey/City in Ebony.

1 EXPLORE

SMART PARKING

Active Park Assist⁽²⁾ will park your Transit Connect for you. The system can locate a suitable parking space and automatically steer you into a parallel or perpendicular space. It can also manoeuvre you out of parallel spaces too. All you need to do is operate the accelerator, brake and gears. (Option)

Parking distance sensors⁽²⁾, front and rear

No need to pass by those more challenging parking spaces. An audible warning helps you judge the distance between your vehicle and obstacles at the front and rear, for easier parking and manoeuvring. (Option) (Rear parking sensors standard on Limited, Sport and Active)

Let Transit Connect park itself

Once activated, Active Park Assist⁽²⁾ can help you find a suitable parking space and will automatically steer you in – and out – as required. (Option)

⁽¹⁾Uses sensors. ⁽²⁾Driver Assistance feature.

Note Driver-assist features are supplemental and do not replace the driver's attention, judgement and need to control the vehicle.

Transit Connect Van Limited L2 in Race Red solid body colour.

1 EXPLORE

ALWAYS PREPARED

Transit Connect is always prepared for the unexpected. Sophisticated radar scans the area ahead and alerts you to vehicles and pedestrians in your path. And a specially placed camera monitors your position on the road and can help you stay within your marked lane. Some systems are standard, while others are available as options or as part of optional packs.

Pre-Collision Assist⁽⁰²⁾ with Pedestrian and Cyclist Detection*

Monitors your proximity to other vehicles, cyclists and pedestrians. If a potential collision is detected, it can alert you with audible and visual warnings and, if needed, pre-charge the brakes and increase brake sensitivity to help provide full responsiveness when you brake. If the system determines a collision is imminent, Active Braking⁽⁰²⁾ automatically applies full braking to help mitigate the effect of any impact. (Option)

Lane-Keeping System⁽⁰²⁾ (Lane-Keeping Alert⁽⁰²⁾ and Lane-Keeping Aid⁽⁰²⁾)

Lane-Keeping Alert is designed to recognise when you approach the road markings without using the indicator and alerts you with vibrations through the steering wheel**. If you fail to react, Lane-Keeping Aid will help keep you within your marked lane**. (Option)

Side Wind Stabilisation⁽⁰¹⁾

Helps you to stay in lane in strong, gusty conditions by using the Electronic Stability Control (ESC) system to sense when the vehicle is being affected by crosswinds. (Option)

⁽⁰⁾Uses sensors. ⁽¹⁾Safety feature. ⁽²⁾Driver Assistance feature. **Note** Driver-assist features are supplemental and do not replace the driver's attention, judgement and need to control the vehicle.
 *Pedestrian and Cyclist Detection is designed to operate at vehicle speeds of up to 50 mph (80 km/h). Pre-Collision Assist can detect pedestrians and cyclists, but not in all conditions and does not replace safe driving. See owner's manual for system limitations.
 **Operates at speeds over 40 mph (65 km/h) on multi-lane roads with clearly visible lane markings. Lane-Keeping System does not control steering.

Transit Connect Van Limited L1 in Moondust Silver metallic body colour (option).

1 EXPLORE

HERE TO HELP

Transit Connect is here to help. Its available safety and Driver Assistance systems monitor the road and the conditions around you, helping to make your working day both easier and safer.

Electronic Stability Control⁽⁰¹⁾ (ESC)

ESC is designed to help you maintain control in extreme driving conditions. It senses when you are deviating from your chosen line and aims to keep you on track by automatically regulating braking and engine output. (Standard)

Emergency Brake Assist⁽⁰¹⁾

Designed to recognise an emergency braking situation and increases the pressure within the braking system to provide optimum stopping power. (Standard)

Load Adaptive Control⁽⁰¹⁾

Designed to adjust the responses of the ESC system to compensate when the vehicle is unladen, partially- or fully-laden. (Standard)

⁽⁰⁾Uses sensors. ⁽¹⁾Safety feature.

Note Driver-assist features are supplemental and do not replace the driver's attention, judgement and need to control the vehicle.

Transit Connect Van Limited L2 in Moondust Silver metallic body colour (option).

Xenon headlights and LED daytime running lights

Xenon headlights offer enhanced light quality over halogen bulbs, while using less energy (option on Trend, Limited, Sport and Active). Automatic headlights⁰ switch on when outside light levels drop to illuminate the road ahead, while static cornering lights mounted in each fog light, illuminate corners during turns (standard on Limited, Sport and Active, option on Base and Trend).

⁰Uses sensors.

230 V power socket

A handy 150 watt 230 V power socket, located between the driver and passenger seats, can be used to charge tools, laptops or other electrical equipment without the need for special adaptors. (Option)

Ford Power starter button

Start the engine at the press of a button. Just keep the key fob with you in your pocket or bag. (Standard on Limited, Sport and Active)

Blind Spot Information System⁰²⁾ (includes Cross Traffic Alert)

Designed to alert you via discreet warning lights built into both door mirrors, when another vehicle – car, van or lorry – enters your blind spot. Cross Traffic Alert scans left and right as you reverse from a perpendicular parking space. If a moving vehicle or other hazard is detected, the system will alert you with visual and audible warnings. (Option on Trend, Limited, Sport and Active)

⁰Uses sensors. ²⁾Driver Assistance.

Note Driver-assist features are supplemental and do not replace the driver's attention, judgement and need to control the vehicle.

Driver Alert⁰¹⁾

Designed to warn you if the system detects driving behaviour that indicates a drop in alertness levels. Initially, a warning icon is displayed in the instrument cluster, followed by an audible chime if driving alertness further declines. (Option as part of a pack)

⁰Uses sensors. ¹⁾Safety feature.

Automatic transmission

The 100 PS Ford EcoBlue diesel engine is available with an 8-speed automatic transmission, making Transit Connect even easier and more relaxing to drive. (Option)

SPECIFICATIONS

Get to know your new Ford Transit Connect inside and out, from its efficient engine technology to its generous equipment levels.

THE POWER TO SUPPORT YOUR BUSINESS

CHOOSE THE ENGINE THAT'S RIGHT FOR YOU

Powered by our latest generation of Ford EcoBoost petrol and Ford EcoBlue diesel engines, Transit Connect is designed to work as hard as you do. Combining power, durability and efficiency, it's the ideal partner for your business. What's more, all versions comfortably meet the latest Euro Stage 6.2 emissions regulations, with CO₂ emissions from just 108 g/km. For further fuel economy and emissions information, please refer to the specifications section.

1.0L Ford EcoBoost petrol

With turbocharging, direct petrol injection, and a clever cylinder deactivation system that enables the engine to run on just two cylinders at low loads, the multiple award-winning Ford EcoBoost engine delivers the same performance as a larger unit, but with much better fuel economy and lower emissions*.

1.5L Ford EcoBlue diesel

Transit Connect is available with a choice of advanced, high-performance Ford EcoBlue diesel engines, according to series. Available with 75 PS (55 kW), 100 PS (74 kW), all versions combine plenty of pulling power for shifting heavy loads, with low running costs*.

GREATER PERFORMANCE, FEWER EMISSIONS

Transit Connect's Ford EcoBlue diesel engines comply with stringent Euro 6d EVAP-ISC-FCM emissions standards. A Selective Catalytic Reduction (SCR) system uses AdBlue®, a urea/water-based fluid to convert NOx emissions in the exhaust gas into nitrogen and water, while the diesel particulate filter is designed to capture 99% of emitted solid particulates from the vehicle's exhaust*.

*For further fuel economy and emissions information, please refer to the specifications section.

GET THE MOST FROM YOUR NEW FORD

We want to help you get the most from your new Ford. And to do that, you need to know how much it is designed to safely carry, both in terms of payload and load volume. Your Transit Centre can provide professional advice on important specification aspects, and help to find the right van for your budget and business needs.

The Ford Transit Connect is designed to carry cargo – and lots of it.

Choosing a new van is an important decision with lots of factors to be considered. While some aspects, like selecting the most appropriate derivative, identifying the intended primary use and determining loadbox size are relatively simple, others, such as calculating payload are more complex.

Payload capacity

To calculate payload, you need to know two things: the vehicle's gross vehicle mass (GVM) and its kerb mass.

GVM is the maximum permissible weight of the vehicle when loaded and ready to go – that includes the weight of the vehicle itself, ancillaries, driver and crew (assuming the industry standard weight of 75 kg/person), fluids, fuel tank 90% full (1 litre of diesel = approximately 0.85 kg), optional and aftermarket equipment, and cargo.

For simplicity, Ford Transit models are designated according to their GVM. For example, a 280 has a GVM of c. 2,800 kg; and a 300 has a GVM of c. 3,000 kg.

Kerb mass is the weight of a standard-specification Base series vehicle, including fluids and fuel tank 90% full, but without the driver, crew or cargo.

Payload is the difference between the two.

Gross vehicle mass minus kerb mass = payload

So to help you choose the right vehicle for your needs, here are some more detailed explanations about the factors that can influence a vehicle's payload. These include, but are not limited to:

Driver and crew

We calculate the weight of the driver and crew based on the industry-standard weight of 75 kg/person. Remember that the driver and crew are not included in the kerb mass figure, so when a driver or crew boards the vehicle, its payload will be reduced accordingly.

Factory-fitted options

Most factory-fitted options will affect a vehicle's payload. For example, air conditioning can add approximately 18 kg to a vehicle's weight, and therefore reduce its payload accordingly.

However, specifying a single front passenger seat in lieu of the standard dual seat will reduce the vehicle's weight by approximately 12 kg, and increase its payload by the same amount. Your Transit Centre will be able to tell you what features can add or reduce your vehicle's kerb mass and by how much.

Series

All kerb masses quoted in this brochure are for standard-specification Base series models, unless otherwise stated. Trend, Limited, Active and Sport series models will generally weigh more than Base series due to the increased level of features and equipment.

Manufacturing tolerances

Variations in manufacturing and production processes mean that no two vehicles are likely to weigh exactly the same.

Accessories and aftermarket conversions

It is important to think carefully about what you add to your vehicle after you take delivery. Any accessories fitted or aftermarket conversions to the vehicle may adversely affect its payload. Please speak to your Transit Centre for more information and advice.

If payload is critical to your business, or if you plan to carry cargo at, or close to, the vehicle's maximum capacity, your Transit Centre can help. Using their specialist expertise and knowledge, they can advise you on the exact specification of vehicle required to meet your individual business needs.

Configure your van to suit your job

Ford Commercial Vehicles are available with a wide range of standard and optional features. Your Transit Centre can help you ensure that you specify the right vehicle features for your specific business needs, including technical items to aid aftermarket fitment of specialist equipment or conversion.

Note Technical information for vehicle converters can be found online via the Body and Equipment Mounting Manual @etis.ford.com go to >information >>vehicle conversions.

L1 = Short wheelbase, **L2** = Long wheelbase. **Note:** All diesel engines include coated diesel particulate filter (cDPF). **11Kerb mass** = The weight of the complete vehicle and all equipment including 90% fuel and water, but without the payload, driver or any passengers. **GVM** = Gross vehicle mass, the total permissible all-up weight of a vehicle – i.e. with body, payload, ancillaries, fuel, oil, water, driver and passengers. **GTM** = Gross train mass, the total permissible all-up weight of a vehicle (see GVM) together with its trailer and load. **10Gross Payload** = Gross vehicle mass less kerb mass. All kerb masses quoted in this brochure are for Base models with minimum equipment. Trend, Limited and Sport models will have greater kerb masses and therefore lower payloads, due to the increased amount of standard equipment. Any additional options specified on the vehicle will reduce the payload accordingly. It must be noted that actual weight will always be subject to manufacturing tolerances which may result in payload variations between this table of figures and actual weight. **NB:** It is the responsibility of the vehicle operator to ensure their vehicles are legally compliant for road use. ⁰⁰⁰⁰The declared fuel/energy consumptions, CO₂-emissions and electric ranges are determined according to the technical requirements and specifications of the European Regulations (EC) 715/2007 and (EU) 2017/1151 as last amended. Light Duty vehicles type-approved using the Worldwide Harmonised Light Vehicle Test Procedure (WLTP) will have fuel/energy consumptions and CO₂-emission information for New European Drive Cycle (NEDC) and WLTP. WLTP will fully replace the NEDC latest by end of the year 2020. The applied standard test procedures enable comparison between different vehicle types and different manufacturers. In addition to the fuel efficiency of a vehicle, driving behaviour as well as other non-technical factors play a role in determining a vehicle's fuel/energy consumption, CO₂ emissions and electric ranges. CO₂ is the main greenhouse gas responsible for global warming. A guide on fuel economy and CO₂ emissions which contains data for all new passenger carrying vehicle models is available at any point of sale free of charge or can be downloaded under https://www.ford.co.uk/owner/resources-and-support/fuel-economy. For further information see (EU) 2017/1151. ⁰⁰⁰⁰The declared fuel/energy consumptions and CO₂ emissions for Stage 6c (NI) and Stage 6d-TEMP (MI) engines are measured according to the technical requirements and specifications of European Regulations (EC) 715/2007, (EC) 692/2008 and (EU) 2017/1151, as last amended. Fuel consumption and CO₂ emissions may be specified for a vehicle variant and not for a single vehicle. The applied standard test procedure enables a comparison between different vehicle types and different manufacturers. In addition to the fuel efficiency of a vehicle; driving behaviour as well as other non-technical factors are very important in determining a vehicle's fuel/energy consumption and CO₂ emissions. A guide on fuel economy and CO₂ emissions which contains data for all new passenger carrying vehicle models is available at any point of sale free of charge or can be downloaded under https://www.ford.co.uk/owner/resources-and-support/fuel-economy. For further information see (EU) 2017/1151.

OWNERSHIP

Getting behind the wheel of your next new Ford is simple, with a variety of finance options available to suit your business needs.

Build your vehicle

Build and personalise your vehicle online. Simply head to the Ford website, select your model, then choose your engine, body colour and extras. You'll be able to view the recommended price, and send your configuration to a Ford Commercial Vehicle Dealer if you wish.

www.ford.ie

Find a Dealer and request a test drive

You can search for a Ford Commercial Vehicle Dealer by location or Dealer name on the Ford website, and request a test drive online. Simply fill in your details and your chosen Dealer will contact you to arrange a convenient time.

www.ford.ie

Commercial Vehicle Finance

When it comes to financing your Ford Commercial Vehicle, our size and expertise means we're well placed to provide you with a wide range of finance products.

Ford Credit†: Provides a range of financing solutions for commercial vehicles.

Ford Lease‡: Ford Lease is an alternative to vehicle ownership with an optional Service and Maintenance plan for additional peace of mind. Business users only. You will not own the vehicle at the end of the agreement.

For more information about our finance products visit www.ford.ie

FordPass Pro

Look after up to five business vehicles, with tools to help you keep them healthy, secure and running smoothly. So you can focus on the work.

FordPass Pro is designed for new Commercial Vehicles that come with FordPass Connect. Our built-in modem keeps you effortlessly connected with your vehicles, wherever you are. Giving you all the features you need to keep your business moving.

FordPass Pro is available in selected markets. Please see your Ford Dealer for details.

Download FordPass Pro from the App Store or get it on Google Play.

Efficiency, accuracy and convenience are at the heart of the Ford service promise. So, whether it's servicing, maintenance or repair you need, be sure to come and see us.

For more information and to find your nearest participating Ford Service centre, visit the aftersales support section at www.ford.ie

Service Plans

Save on your servicing costs

A Ford Protect Service Plan† fixes your servicing costs at today's prices for the duration of your plan, helping you save money.

Simply select the Ford Protect Service Plan that is most appropriate to your needs, with 2, 3 and 4 year plans available. Ford Protect Service plans can be paid for upfront, or if you buy online through the Ford Online Shop, the costs can be spread into convenient and affordable monthly payments. www.ford.ie/shop/extras/warranties/ford-protect

Ford Protect Service Plans must be purchased before the vehicle is 12 months old or before its first service. They are transferable to the new owner should you decide to sell your vehicle. Your Ford dealer will be happy to advise you on a plan which is tailored to your needs.

The duration of a Ford Protect Service Plan begins at the New Vehicle Warranty commencement date (usually the date of first registration). The length of your contract and your estimated mileage determines the number of services in a Ford Protect Service Plan.

Ford Protect

Commercial Extended Warranty

Cover your vehicle beyond the new vehicle warranty up to 5 years with Ford Protect. Available at participating Ford Dealers.

By extending your standard 2-year warranty, you will enjoy worry-free operation for many years to come. Ford Protect provides a range of key benefits, including:

- Extended duration and mileage
- Cover against unexpected repair costs
- Protection on trips abroad
- With a Ford Protect Plan, the price of parts and labour are guaranteed for the length of your plan
- Helps prolong the lifespan of your Ford vehicle
- Helps protect your vehicle resale value

Ford Protect terms and conditions apply.

For further information please call

03702 416 726, option 2, option 2.

*Repairs will start on the same working day (as long as you bring your vehicle in before 3pm), or at least within 24 hours of its arrival. If we need to order parts, we'll begin work the day they're delivered. 'Vehicle off the road' repairs should be completed within 24 hours.

**Your Transit Centre can arrange to collect your vehicle and deliver it back to you after service or repairs, so you can get on with running your business. By arrangement and limited to a specific mileage radius of the Dealer. Contact your local Dealer to discuss your requirements.

†Available at participating Dealers only. Roadside Assistance is activated automatically at every routine service with coverage extended valid from the date of service for 12 months. See Ford.co.uk/roadsideassistance for more information.

**Collection and delivery takes place on appointment and within a reasonable travelling time (maybe at an additional cost – please consult your service advisor). We even wash your vehicle so that it looks its best.

Illustrations, descriptions and specifications. This catalogue was correct at the time of going to print. However, Ford policy is one of continuous product development. The right is reserved to change specifications, colours and prices of the models and items illustrated and described in this publication at any time. For the latest details always consult your Ford Dealer. **Optional equipment.** Throughout this publication, wherever a feature is described as being an 'Option' or 'Option Fitment/Pack' etc, you should assume that it will be at extra cost to the base vehicle, unless specifically stated to the contrary. All models and colour combinations are subject to availability. **Note.** Some images portrayed are of a pre-production model and/or are computer generated, therefore, the design/features on the final version of the vehicle may differ in various respects. In addition, some of the features shown on the vehicles may be optional. **Note.** This brochure contains both original Ford accessories as well as a range of products from our suppliers. Fitment of accessories may have an impact on your vehicle's fuel consumption. ♦ The identified accessories are carefully selected third party supplier branded accessories which do not come with a Ford warranty but are instead covered by the third party supplier's own warranty, the details of which can be obtained from your Ford Dealer. **Note.** The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Ford Motor Company is under licence. The iPod word mark and logos are the property of Apple Inc. Other trademarks and trade names are those of their respective owners. **Note.** Some driver assistance features and safety features described in this brochure are designed to function using sensors, whose performance may be affected under certain weather or environmental conditions.
