⁰⁰ The test used to establish fuel consumption and CO₂ figures has changed to deliver results that are more representative of real driving. The Worldwide Harmonised Light Vehicle Test Procedure (WLTP) has replaced the old NEDC test. The Fuel Consumption and CO₂ figures shown are derived from the new WLTP test. Please note that vehicle registration tax (VRT) is not based on these WLTP figures in 2019, these figures are for information purposes only. Understanding fuel data. The table above shows the fuel consumption (WLTP) and CO₂ emissions (WLTP) for each available engine when fitted on a standard specification C-MAX (with no options or accessories). Adding options or accessories to your chosen vehicle can impact WLTP fuel consumption and CO₂ emissions. Please speak to your Ford Dealer for more information. The fuel consumption you achieve in real life conditions and CO₂ produced will depend upon a number of factors including options and accessories fitted, variations in weather, driving styles and vehicle load. The declared Fuel/Energy Consumption, CO₂ Emissions and Electric range are determined according to the technical requirements and specifications of the European Regulations (EC) 715/2007 and (EU) 2017/1151 as last amended. The applied standard test procedure enables comparison between different vehicle types and different manufacturers. In addition to the fuel efficiency of a car, driving behavior as well as other non-technical factors play a role in determining a car's fuel/energy consumption, CO₂ emissions and electric range. CO₂ is the main greenhouse gas responsible for global warming. A guide on fuel economy & CO₂ emissions which contains data for all new passenger car models is available at any point of sale free of charge. ^aRepresents the lightest kerbweight assuming driver at 75 kg, full fluid levels and 90% fuel levels, subject to manufacturing tolerances and options, etc., fitted. **Towing limits** quoted represent the maximum towing ability of the vehicle at its **Gross Vehicle Mass** to restart on a 12% gradient at sea level. The performance & economy of all models will be reduced when used for towing. **Nose weight limit** is a maximum of 75 kg on all models. **Gross Train Mass** includes trailer weight.

*CO₂ figure with standard tyres fitted. 136 (g/km) when fitted with all season tyres.

Lowest emissions

1.5 Duratorq TDCi

The C-MAX range combines low running costs with great driving dynamics – the 1.5-litre TDCi ECONetic diesel engine achieves 95 PS & 120PS, while the 1.0 Ford Ecoboost 100 PS petrol engine is now a six times winner at the International Engine of the Year awards.

⁹⁹Figures relate to 1.5 Duratorq TDCi engine only.

All C-MAX Models

Illustrations, descriptions and specifications. This catalogue was correct at the time of going to print. However, Ford policy is one of continuous product development. The right is reserved to change specifications, colours and prices of the models and items illustrated and described in this publication at any time. For the latest details always consult your Ford Dealer. **Optional equipment.** Throughout this publication, wherever a feature is described as being an 'Option' or 'Option Fitment/Pack' etc, you should assume that it will be at extra cost to the base vehicle, unless specifically stated to the contrary. All models and colour combinations are subject to availability. **Note.** Some images portrayed are of a pre-production model and/or are computer generated, therefore, the design/features on the final version of the vehicle may differ in various respects. In addition, some of the features shown on the vehicles may be optional. **Note.** This brochure contains both original Ford accessories as well as a range of products from our suppliers. Fitment of accessories may have an impact on your vehicle's fuel consumption. **+** The identified accessories are carefully selected third party supplier branded accessories which do not come with a Ford warranty but are instead covered by the third party supplier's own warranty, the details of which can be obtained from your Ford Dealer. **Note.** The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Ford Motor Company is under licence. The iPod word mark and logos are the property of Apple Inc. Other trademarks and trade names are those of their respective owners. **Note.** Some driver assistance features and safety features described in this brochure are designed to function using sensors, whose performance may be affected under certain weather or environmental conditions.
