

Ford

S-MAX

Choose the right S-MAX for you

Available in a range of uniquely individual series, it's never been easier to choose a new Ford S-MAX. Whether you prefer the comfort of a Luxury vehicle, or the fun-loving dynamics of Sport, there is a new Ford S-MAX to suit you. To make your purchase choice even more rewarding, we've elevated the standard of features across all series. So now, whichever S-MAX route you decide to take, you can be sure of a higher level of standard features, as well as a host of add-on features available as part of an option pack.

Titanium

Luxury

Ford S-MAX luxury models deliver superior levels of sophistication and comfort, with premium materials and additional technologies to make driving an even more pleasurable experience.

Vignale

ST-Line

Sport

With the distinctive eye-catching individuality of ST-Line Edition, the S-MAX sports model delivers sporty driving dynamics, along with agility and control.

The test used to establish fuel consumption and CO₂ figures has changed to deliver results that are more representative of real driving. The Worldwide Harmonised Light Vehicle Test Procedure (WLTP) has replaced the old NEDC test. The Fuel Consumption and CO₂ figures shown are derived from the new WLTP test. Please be mindful of this in making comparisons between vehicles where some manufacturers may still display the old NEDC figures. It should be noted that vehicle registration tax (VRT) and where applicable motor tax is not based on these WLTP figures in 2020, these figures are for information purposes only. Understanding fuel data The table shows the fuel consumption (WLTP) and CO₂ emissions (WLTP) for each available engine when fitted on a standard specification Mondeo (with no options or accessories). Adding options or accessories to your chosen vehicle can impact WLTP fuels consumption and CO₂ emissions.

*In 4th gear. *Ford test figures. **The declared Fuel/Energy Consumptions, CO₂ emissions and electric range are measured according to the technical requirements and specifications of the European Regulations (EC) 715/2007 and (EC) 692/2008 as last amended. Fuel consumption and CO₂ emissions are specified for a vehicle variant and not for a single car. The applied standard test procedure enables comparison between different vehicle types and different manufacturers. In addition to the fuel efficiency of a car, driving behaviour as well as other non-technical factors play a role in determining a car's fuel/energy consumption, CO₂ emissions and electric range. CO₂ is the main greenhouse gas responsible for global warming.

*Represents the lightest kerbweight assuming driver at 75 kg, full fluid levels and 90% fuel levels, subject to manufacturing tolerances and options, etc., fitted. Towing limits quoted represent the maximum towing ability of the vehicle at its Gross Vehicle Mass to restart on a 12 per cent gradient at sea level. The performance and economy of all models will be reduced when used for towing. Gross Train Mass includes trailer weight. *Gradient at sea level.

FORD S-MAX Next steps

try

Visit your Ford Dealer and test drive the Ford S-MAX for yourself. Find your local Dealer: www.ford.com/SBE/DealerLocator

build

Go online and build and price your new Ford S-MAX to your exact specification.

finance

When it comes to financing your vehicle, Ford Credit’s size and expertise means they’re well placed to provide you with a wide range of finance products. Ford Credit provides a range of finance products for your vehicle whether you are a private or business user.

The credit provider of these products is Bank of Ireland Leasing Ltd, trading as Ford Credit.

The FORD and FORD CREDIT trademarks are owned by Ford Motor Company and are used under licence.

For more information about the finance products provided by Ford Credit visit www.ford.ie

own

When you drive away in your new vehicle, we’re with you all the way. Ford has a large authorised service network to help you keep your vehicle in the best condition.

And should your new Ford ever require accident repair, a Ford Accident Repair Centre is the best place to get your vehicle back to its pre-accident condition and on the road as quickly as possible.

FordPass

FordPass is a new platform that will empower you to rethink the way you move. Finds parking locations nearby, contains vehicle and finance details, dealer information and a host of useful guides.

Live Traffic access is free for the first 2 years following the purchase of a new Ford featuring SYNC 3 with navigation; thereafter there is an annual licence fee.
