Leader Trend Trail Limited Active Sport NRP GRP

# VAN SPECIAL VEHICLE ORDER (SVO) OPTION PRICES

Van SVO options	SVO Code	Leader	Trend	NRP	GRP
Omit Dual Co-Driver seat (SVO seat Pk 11). No pedestal; not available with load through hatch bulkhead	A304	0	0	-101	(124.62)
Engine RPM Speed Control (manual transmission only) Stationary Power Take Off operation only, 1300-3000rpm	A003	0	0	53	64.81
DPF Manual Regeneration	A660	0	0	200	246.00
Auxiliary fuse panel	A526*	0	0	45	54.83
Beacon Preparation Pack - switch and wiring for two beacons (front and rear): (includes Auxiliary fuse panel A526, and Mini Overhead Console - 1DIN). Not to be ordered with RPO tachograph, as utilises the same DIN console.	A606**	0	0	130	159.52
Converter interface 43-way connector - Provides hardwired vehicle signal outputs. (includes Auxiliary fuse panel A526) Not available with A607.	A608	0	0	450	553.50
Solid Special Paint, 132 colours available, consult Dealer for Details. SVO paint suffix must be entered at time of ordering. SVO paint pulls black (self-colour) bumpers, bodyside mouldings, mirror housing, and door handles.	Various	0	0	729	897.27
Trailer tow electrics (not available with Rear Air Suspension on M1 Kombi) This pack includes the trailer tow electrics with 13 pin connector but without the tow bar. This is to enable customers to fit their own bespoke towbar whilst maintaining integrity and security of the OE wiring system including alarm function (where Cat 1 alarm fitted) and trailer sway control	A055	0	0	85	104.55
Programmable Battery Guard (not available with 230V Power Converter)	A540	0	0	162	199.40
Converter High Power Supply System— ideal for Refrigeration, Emergency Service and Maintenance vehicles. Includes a number of RPO & SVO options into a single pack:  • AGM batteries, 2 x H7 80Ah, 800CCA  • 240A Alternator (heavy duty)  • RPM engine control (SVO A003)  • Programmable Battery Guard (SVO A540)  Manual transmission only	A550	0	0	385	473.56

When specifying either AGM's or A550 - these options overide all other battery dependant options. E.g. Digital Tachograph would not pull an additional battery at an extra charge when either of these two options are specified.

\*NOTE - SVO A526 - Auxiliary Fuse Panel, is automatically specified and included in the price of A606.

\*\*NOTE - SVO A606 - beacon prep pack - is automatically specified and included in the price of A607.

#### **FUEL CONSUMPTION AND Co2**

The test used to establish fuel consumption and CO2 figures has changed to deliver results that are more representative of real driving. The Worldwide Harmonised Light Vehicle Test Procedure (WLTP) has replaced the old NEDC test. The Fuel Consumption and CO2 figures shown are derived from the new WLTP test. This will produce more accurate figures which most likely will be greater than those arrived at using the NEDC test. Please be mindful of this in making comparisons between vehicles where some manufacturers may still display the old NEDC figures. It should be noted that vehicle registration tax (VRT) and where applicable motor tax is not based on these WLTP figures in 2020, these figures are for information purposes only.

Understanding fuel data The table shows the fuel consumption (WLTP) and CO2 emissions (WLTP) for each available engine when fitted on a standard specification Transit Van (with no options or accessories). Adding options or accessories to your chosen vehicle can Impact WLTP fuels consumption and CO2 emissions. Please speak to your Ford Dealer for more information.

									WLTP Fuel (Mpg)		WLTP Fue	l (l/100 km)	WLTP	Overall

TRAIL

The fuel consumption you achieve in real life conditions and CO2 produced will depend upon a number of factors including options and accessories fitted, variations in weather, driving styles and vehicles load. The declared Fuel/Energy Consumption CO2 Emissions and Electric range are determined according to the technical requirements and specifications of the European Regulations (EC) 715/2007 and (EU) 2017/1151 as last amended. The applied standard test procedure enables comparison between different vehicle types and different manufacturers. In addition to the fuel efficiency of a car, driving behavior as well as other non-technical factors play a role in determining a car's fuel/energy consumption, CO2 emissions and electric range, CO2 is the main greenhouse gas responsible for global warming. A guide on fuel economy and CO2 emissions which contains data for all new passenger car models is available at any point of sale free of charge or can be downloaded under www.seai.ie.

#### **FUEL CONSUMPTION AND C02 - DCiV**

The test used to establish fuel consumption and CO2 figures has changed to deliver results that are more representative of real driving. The Worldwide Harmonised Light Vehicle Test Procedure (WLTP) has replaced the old NEDC test. The Fuel Consumption and CO2 figures shown are derived from the new WLTP test. This will produce more accurate figures which most likely will be greater than those arrived at using the NEDC test. Please be mindful of this in making comparisons between vehicles where some manufacturers may still display the old NEDC figures. It should be noted that vehicle registration tax (VRT) and where applicable motor tax is not based on these WLTP figures in 2020, these figures are for information purposes only.

Understanding fuel data The table shows the fuel consumption (WLTP) and CO2 emissions (WLTP) for each available engine when fitted on a standard specification Transit DCiV (with no options or accessories). Adding options or accessories to your chosen vehicle can Impact WLTP fuels consumption and CO2 emissions. Please speak to your Ford Dealer for more information.

									WLTP F	uel (Mpg)	WLTP Fue	l (l/100 km)	WLTP	Overall	
	BODYSTYLE	MARKETING LEVEL	SERIES	Wheel base	ENGINE	TRANSMISSION	EMISSION	FUEL	Fuel Low	Fuel High	Fuel Low	Fuel High	CO2 (g/km) <sup>1</sup>	FUEL (I/100 km) <sup>1</sup>	NO <sub>x</sub> (mg/km)

The fuel consumption you achieve in real life conditions and CO2 produced will depend upon a number of factors including options and accessories fitted, variations in weather, driving styles and vehicles load. The declared Fuel/Energy Consumption CO2 Emissions and Electric range are determined according to the technical requirements and specifications of the European Regulations (EC) 715/2007 and (EU) 2017/1151 as last amended. The applied standard test procedure enables comparison between different vehicle types and different manufacturers. In addition to the fuel efficiency of a car, driving behavior as well as other non-technical factors play a role in determining a car's fuel/energy consumption, CO2 emissions and electric range, CO2 is the main greenhouse gas responsible for global warming. A guide on fuel economy and CO2 emissions which contain data for all new passenger car models is available at any point of sale free of charge or can be downloaded under www.seai.ie.

#### ACCESSORIES

Dealer Supplied Accessories	Part Number	Recommended Retail Price (excl. VAT)	Dealer Supplied Accessories	Part Number	Recommended Retail Price (excl. VAT)
Transportation					
Brink® Fixed Tow Bar - Excludes PHEV - not with air suspension	1815307	€269.92	Brink® Detachable Tow Bar - Excludes PHEV - not with air suspension	1842424	€437.29
Brink® E Kit 13 Pin - Excludes PHEV - not with tow prepack cable	2051508	€218.48	Folding Roof Base Carrier, set of 3, with T-slot	2394045	€866.89

ZEV Public Charging Cable, Type 2, 32 amp, 5m	2114394	€141.94			

 $<sup>^1\</sup>mathrm{Single}$  alloy wheel, price excludes Centre Cap, Wheel Nuts, Tyre and fitting  $^2\mathrm{Item}$  is non-Ford branded from an approved supplier

## **VRT Category A (EU Classification M1)**

Most cars fit into category A and minibuses carrying no more than 8 passengers and driver. VRT is charges based on the CO2 emissions of the vehicle when it was

manufactured. The VRT rates are as follows:

# Nitrogen Oxide (NOx) Emission Levy

Effective from 1st January 2021	CO <sub>2</sub> Emissions (g/km)*		VRT Rate	NOX (mg/km)*	Amount payable per mg/km (€)
1	0	50	7.00%	The first 0-40 mg/km	5.00
2	51	80	9.00%	The next 40 mg/km or part	15.00
3	81	85	9.75%	thereof up to 80 mg/km	13.00
4	86	90	10.50%	The remainder above 80	25.00
5	91	95	11.25%	mg/km	25.00
6	96	100	12.00%		
7	101	105	12.75%	Diesel cap	4850.00
8	106	110	13.50%	Petrol cap	600.00
9	111	115	15.25%		
10	116	120	16.00%		
11	121	125	16.75%		
12	126	130	17.50%		
13	131	135	19.25%		
14	136	140	20.00%		
15	141	145	21.50%		
16	146	150	25.00%		
17	151	155	27.50%		
18	156	170	30.00%		

19	171	190	35.00%
20	191	500	41.00%

NOTE: The NOx levy will be applied to all VRT category A vehicles (passenger and SUVs). The new charges being introduced will mean an increase in VRT for older imported cars and these charges will be based on a NOx (Nitrogen Oxide) sliding scale on passenger cars.

#### Ford Pro

Ford Pro delivers a step change for European commercial vehicle fleet productivity with innovative, digital solutions designed to increase uptime and reduce operating costs. Ford Pro solutions combine software, charging, service and financing for commercial vehicles, providing customers with one comprehensive platform to operate their fleets as they adopt connected and electrified vehicles across their business.

#### OTHER PRICING CONSIDERATIONS

#### VAT

VAT is shown calculated at 23%. The total price of a vehicle, including factory fitted options and accessories fitted by the Ford Dealer, will be subject to VAT on retail sale.

#### **Price Changes**

This price list outlines Ford's recommended on the road prices and recommended retail prices. Please contact your Ford dealer for final sale prices. This price list is effective from 19th December 2022, and supercedes all previous price lists. The recommended prices in the publication were true and accurate at the time of printing. You should, however, check details with your Dealer as there may have been changes to Ford's recommended prices in view of Ford's policy of continuous development. Ford reserves it right is reserved to change its recommended prices at any time. Change to government legislation or tax changes could result in a change to ford's published recommended prices.

#### ILLUSTRATIONS, DESCRIPTIONS AND SPECIFICATIONS

The product information in this publication was correct at the time of going to print. However, Ford's policy is one of continuous product development. The right is reserved to change specifications and colours of the models and items illustrated and described in this publication at any time. For the latest details always consult your Ford Dealer. Throughout this publication, wherever a feature is described as being an 'Option' or 'Option Fitment/Pack' etc, you should assume that it will be at extra cost to the base vehicle, unless specifically stated to the contrary. All models and colour combinations are subject to availability.

Some images portrayed are of a pre-production model and/or are computer generated, therefore the design / features on the final version of the vehicle may differ in various respects. In addition, some of the features shown on the vehicles may be optional e.g. metallic paint.

Please also note some driver assistance features and safety features described in this publication are designed to function using sensors, whose performance may be affected under certain weather or environmental conditions.
