

FORD KUGA PRICE LIST

Effective from 1st March 2022

SERIES RANGE

Titanium

Exterior:

- 17" alloy wheels
- Halogen Projector Headlamps
- LED day time running headlamps
- Front LED fog lamps
- LED rear lights
- Privacy glass
- Silver roof rails
- Heated and power folding mirrors with puddle lights
- Rear spoiler
- Twin exhausts

Interior:

- Keyless start and entry
- Quickclear heated windscreen
- Premium touch Sensico trimmed steering wheel and gear knob
- Ambient lighting
- Auto wipers
- Dual zone automatic temperature control (DEATC)
- Auto-dimming rear view mirror
- Front and rear floor mats

Seating:

- 8-way manual front seats in Ebony Cloth (with lumbar support & height adjust)

Audio / communication:

- Full digital 12.3" instrument cluster
- SYNC 3 with DAB audio system, 6 speakers and Navigation
- FordPass Connect (embedded modem)**, Android Auto and Apple CarPlay

Driver assistance:

- Rear View Camera
- Cruise control with adjustable speed Limiter
- Front & rear parking sensors
- Pre-Collision Assist with Autonomous Emergency Braking
- Lane-Keeping Aid with Lane-Departure Warning
- Intelligent Speed Assist
- Post Collision Braking
- Thatcham Category 1 alarm
- Locking wheel nuts
- Rear occupancy alert

PHEV only:

- Home charge cable with 3-pin plug for use with domestic socket (230V/16A)
- Geofencing - providing details of ULEZ areas within the Satellite Navigation

From a Gross Retail Price of € 42,204

Vignale

Additional to Titanium

Exterior:

- 19" Liquid Aluminium alloy wheels
- LED headlamps
- Front LED Fog lamps
- Vignale body styling kit
- Front & rear Vignale fascia
- Vignale rear diffuser
- Door mirrors with memory function
- Hands-Free Power tailgate

Interior:

- Vignale premium touch Sensico steering wheel & gear knob
- Heated steering wheel
- Vignale scuff plates
- Active noise cancellation
- Vignale front & rear mats

Seating:

- Vignale leather seat trim
- 10 way power adjustable driver's seat with memory
- Heated passenger and driver's seats
- Heated rear seats

Audio / communication:

- B&O Premium audio system:
 - 10 speakers and subwoofer
 - Digital Signal Processing (DSP) amplifier delivering 575 watts
 - B&O design

From a Gross Retail Price of € 48,912

Images shown for illustrative purposes only. Body colours shown may be optional (at additional cost). See colour options page for more information.

SERIES RANGE

ST-Line

Additional to Titanium

Exterior:

- 18" Rock Metallic alloy wheels
- Front LED fog lights
- Black roof rails
- ST-Line full body styling kit:
 - Unique front and rear fascia and bumper design
 - Rear painted diffuser
 - Front painted skid plate
 - Dark mesh upper grille
- Large rear spoiler
- Red brake calipers
- ST-Line Badges

Interior:

- Dark headliner & pillars
- Flat bottom steering wheel in Sensico with red stitching
- ST-Line gear knob for vehicles with manual transmission
- ST-Line front and rear floor mats
- Alloy pedals

Seating:

- ST-Line sport seats in cloth

From a Gross Retail Price of € 44,177

ST-Line X

Additional to ST-Line

Exterior:

- Full LED Headlamps
- Headlamp Control - Automatic High/Low Beam
- Hands-Free Power tailgate

Seating:

- Partial premium touch Sensico sports seats with red stitching
- 10 way power adjustable driver's seat

Audio / communication:

- B&O Premium audio system:
 - 10 speakers and subwoofer
 - Digital Signal Processing (DSP) amplifier delivering 575 watts
 - B&O design

From a Gross Retail Price of € 46,413

Images shown for illustrative purposes only. Body colours shown may be optional (at additional cost). See colour options page for more information.

Note: Vehicles are homologated in accordance with the new type approval procedure WLTP (Regulation (EU) 2017/1151; Regulation (EC) 715/2007). From the 1st January 2021 CO2 figures shown are derived solely

ELECTRIC TECHNOLOGY

Which electric engines is right for you?

HYBRID (FHEV)

Hybrid vehicles have two sources of power. They can automatically switch between conventional mode, pure electric mode (for short distances) or use both to power the vehicle as needed.

Kuga FHEV has a battery capacity of 1.1kWh which allows short term electric propulsion, a great combination between power and fuel efficiency, whilst reducing the CO2 footprint compared to a conventional engine.

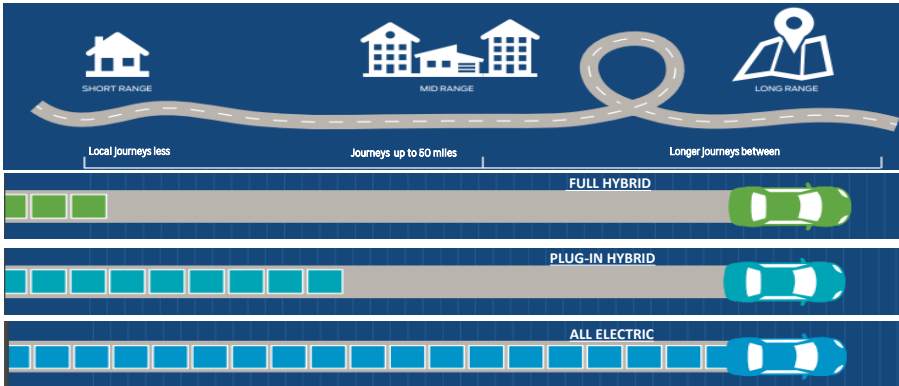

PLUG-IN HYBRID (PHEV)

Plug In. Charge up. Improves Efficiency versus a conventional, mild hybrid or hybrid engine.

Plug-in Hybrids have the two sources of power like a hybrid, but with a larger high voltage battery, enabling you to drive longer distances on all-electric power.

Kuga PHEV has a battery size of 14.4 kWh which gives a maximum EV range of 56 km. This results in a combined average fuel economy up to 1.0l per 100km and only 22 g/km CO2.**

Electric range

* Ranges are estimates only and depend on the vehicle, road conditions and driving behaviour.

** Please see the Fuel Consumption and CO2 data available in this Pricelist

Charging the battery

HYBRID

There's no need to plug in your vehicle for charging. Hybrid vehicles are able to recharge the battery in two ways:

- 1) Regenerative braking
- 2) Conventional engine

The conventional engine powers the generator which transforms mechanical energy into electrical energy to charge the battery.

PLUG-IN HYBRID

The larger battery in Plug-in Hybrids can be plugged-in to charge. Once the battery is depleted, the vehicle behaves like a conventional hybrid with the engine running when required.

All four electric vehicle types use regenerative braking to charge the battery. While braking, the motor is still spinning even though the car is trying to slow down.

Regenerative braking captures this typically wasted energy to create electricity, which charges the battery.

Plug in charging options

230V Wall outlet

Plug-in Hybrids and All-Electric vehicles can be charged on a 230V outlet (16A), which is the standard electrical socket in most UK households. This takes approximately 6 hours to charge the battery.

Ford Connected Wall Box Charger

If want to make recharging your Kuga Plug-In Hybrid at home as fast as possible, you'll need to install a wallbox. Simply talk to your Ford Dealer, who will work with our installation partner, Bord Gais. Once installed, you can fully recharge your Kuga from zero to full in 3-3.5 hours.

Public charging stations

Public charging stations, available in many cities and work places. The price and charging capability vary.

¹ Single alloy wheel. Excludes centre cap, tyre, wheel nuts, valve & fitment

² Item is non-Ford branded from an approved supplier

For any more information about any of the included Ford Accessories, or to view a full range of Ford Accessories visit www.ford-accessories.le

This price list shows both original Ford accessories as well as a range of carefully selected products from third party suppliers, identified under that third party supplier's brand name. Please note that third party supplier branded accessories do not come with a Ford warranty but are covered by the third party supplier's own warranty, the details of which can be obtained from your Ford Dealer. Fitment of accessories may have an impact on your vehicle's fuel consumption.

Prices do not include fitting unless otherwise stated. Please refer to your Ford Dealer for fitted prices.

FUEL CONSUMPTION

The test used to establish fuel consumption and CO2 figures has changed to deliver results that are more representative of real driving. The Worldwide Harmonised Light Vehicle Test Procedure (WLTP) has replaced the old NEDC test. The Fuel Consumption and CO2 figures shown are derived from the new WLTP test.

This will produce more accurate figures which most likely will be greater than those arrived at using the NEDC test. Please be mindful of this in making comparisons between vehicles where some manufacturers may still display the old NEDC figures. It should be noted that vehicle registration tax (VRT) and where applicable motor tax is now based on these WLTP figures from 1st January 2021. Understanding fuel data: The table below shows the fuel consumption (WLTP) and CO2 emissions (WLTP) for each available engine when fitted on a standard specification Kuga (with no options or accessories). Adding options or accessories to your chosen vehicle can impact WLTP fuel consumption and CO2 emissions. Please speak to your Ford Dealer for more information.

You can also use Ford's online configurator to build and customise a new Ford vehicle: www.ford.ie/configurator. The configurator provides information about your configured vehicle's fuel consumption and CO2 emissions (these are also WLTP test figures).

Engine	Fuel Type	Available On	Euro Emissions	Transmission	Drive	Maximum Power PS (KW)	Torque Nm	Combined Fuel Consumption (WLTP Figures)		Charging Times for PHEV battery (hrs)		
								Lowest Performing (L/100km)∞	Highest Performing (L/100km)∞	DC Fast Charge	Wallbox /High power outlet (400V/32A)	Domestic Socket (230V/16A)

*In 4th gear. ∞Ford test figures.

∞ The declared Fuel/Energy Consumption, CO2-Emissions and Electric range are determined according to the technical requirements and specifications of the European Regulations (EC) 715/2007 and (EU) 2017/1151 as last amended. Light Duty Vehicles type-approved using the World Harmonised Light Vehicle Test Procedure (WLTP) have Fuel/Energy Consumption and CO2-Emission information for both New European Drive Cycle (NEDC) and WLTP. WLTP is a new, more realistic test procedure for measuring fuel consumption and CO2 emissions and has fully replaced NEDC in 2020. The applied standard test procedure enables comparison between different vehicle types and different manufacturers. In addition to the fuel efficiency of a car, driving behaviour as well as other non-technical factors play a role in determining a car's fuel/energy consumption, CO2 emissions and electric range. CO2 is the main greenhouse gas responsible for global warming. A guide on fuel economy and CO2 emissions which contain data for all new passenger car models is available at any point of sale free of charge or can be downloaded under www.seal.ie.

VRT Category A (EU Classification M1)

Most cars fit into category A and minibuses carrying no more than 8 passengers and driver. VRT is charges based on the CO2 emissions of the vehicle when it was manufactured. The VRT rates are as follows:

Nitrogen Oxide (NOx) Emission Levy

Effective from 1st January 2022	CO ₂ Emissions (g/km)*	VRT Rate €	Minimum VRT €	NOX (mg/km)*	Amount payable per mg/km (€)	
1	0	50	7.00%	280.00	The first 0-40 mg/km	5.00
2	51	80	9.00%	300.00	The next 40 mg/km or part thereof up to 80 mg/km	15.00
3	81	85	9.75%	320.00	The remainder above 80 mg/km	25.00
4	86	90	10.50%	340.00		
5	91	95	11.25%	360.00		
6	96	100	12.00%	380.00		
7	101	105	12.75%	460.00	Diesel Cap	4850.00
8	106	110	13.50%	540.00	Petrol Cap	600.00
9	111	115	15.25%	600.00		
10	116	120	16.00%	680.00		
11	121	125	16.75%	720.00		
12	126	130	17.50%			
13	131	135	19.25%			
14	136	140	20.00%			
15	141	145	21.50%			
16	146	150	25.00%			
17	151	155	27.50%			
18	156	170	30.00%			
19	171	190	35.00%			
20	191	500	41.00%			

NOTE: The NOx levy will be applied to all VRT category A vehicles (passenger and SUVs). The new charges being introduced will mean an increase in VRT for older imported cars and these charges will be based on a NOx (Nitrogen Oxide) sliding scale on passenger cars.

This new tax will replace the 1% VRT Levy on diesel cars which was introduced last year and the NOx tax will apply to all new or imported cars from January 1st, 2020.

OTHER PRICING CONSIDERATIONS

Customer Order Price Protection

Ford's Price Protection Plan means that the price you pay is the same as the price on your order as long as you are prepared to accept delivery within three months, and in any event, as soon as your vehicle is available. Your Dealer has full details of the plan. Henry Ford & Son Limited is not liable for changes in price caused by Government changes in tax rates or changes in other applicable legislation.

VAT

VAT is shown calculated at 23%. The total price of a vehicle, including factory fitted options and accessories fitted by the Ford Dealer, will be subject to VAT on retail sale.

Price Changes

This price list outlines Ford's Gross Retail Prices (GRP), please contact your Ford dealer for final sale prices.

This price list is effective from 1st March 2022 and supersedes all previous price lists. The recommended prices in the publication were true and accurate at the time of printing. You should, however, check details with your Dealer as there may have been changes to Ford's recommended prices in view of Ford's policy of continuous development. Ford reserves its right to change its recommended prices at anytime. Change to government legislation or tax changes could result in a change to Ford's published recommended prices.

ILLUSTRATIONS, DESCRIPTIONS AND SPECIFICATIONS

The product information in this publication was correct at the time of going to print. However, Ford's policy is one of continuous product development. The right is reserved to change specifications and colours of the models and items illustrated and described in this publication at any time. For the latest details always consult your Ford Dealer. Throughout this publication, wherever a feature is described as being an 'Option' or 'Option Fitment/Pack' etc., you should assume that it will be at extra cost to the base vehicle, unless specifically stated to the contrary. All models and colour combinations are subject to availability. Some images portrayed are of a pre-production model and/or are computer generated, therefore the design/features on the final version of the vehicle may differ in various respects. In addition, some of the features shown on the vehicles may be optional e.g. metallic paint.

Please also note some driver assistance features and safety features described in this publication are designed to function using sensors, whose performance may be affected under certain weather or environmental conditions.
