MECHANICAL FEATURES

Side Wind Stabilisation	O	O	O	O	O	52.79	64.93
Mechanical Limited Slip Differential developed by performance experts Quaife. The system automatically biases torque across the axle to the wheel with most grip. Unwanted wheelspin and slip are greatly reduced, delivering enhanced traction and performance. Silent in operation, never 'locks' making it safe, progressive and user friendly. Proven, reliable technology used in all three generations of Focus RS, Fiesta ST and Focus ST. No impact on CO ₂ or fuel efficiency.	O	O	O	O	O	670.00	824.10
100 KPH Engine Speed Limiter	O	O	O	-	O	56.85	69.93

TRANSIT CONNECT VAN FUEL CONSUMPTION

The test used to establish fuel consumption and CO2 figures has changed to deliver results that are more representative of real driving. The Worldwide Harmonised Light Vehicle Test Procedure (WLTP) has replaced the old NEDC test. The Fuel Consumption and CO2 figures shown are derived from the new WLTP test.

This will produce more accurate figures which most likely will be greater than those arrived at using the NEDC test. Please be mindful of this in making comparisons between vehicles where some manufacturers may still display the old NEDC figures. It should be noted that vehicle registration tax (VRT) and where applicable motor tax is now based on these WLTP figures from 1st January 2021. Understanding fuel data; The table below shows the fuel consumption (WLTP) and CO2 emissions (WLTP) for each available engine when fitted on a standard specification Focus (with no options or accessories). Adding options or accessories to your chosen vehicle can impact WLTP fuel consumption and CO2 emissions. Please speak to your Ford Dealer for more information.

You can also use Ford's online configurator to build and customise a new Ford vehicle: www.ford.ie/configurator. The configurator provides information about your configured vehicle's fuel consumption and CO2 emissions (these are also WLTP test figures).

Notes

∅Ford test figures.

∅∅ The declared Fuel/Energy Consumptions, CO2-Emissions and Electric range are determined according to the technical requirements and specifications of the European Regulations (EC) 715/2007 and (EU) 2017/1151 as last amended. Light Duty Vehicles type-approved using the World Harmonised Light Vehicle Test Procedure (WLTP) have Fuel/Energy Consumptions and CO2-Emission information for both New European Drive Cycle (NEDC) and WLTP. WLTP is a new, more realistic test procedure for measuring fuel consumption and CO2 emissions and will fully replace the NEDC latest by end of the year 2020. The applied standard test procedure enables comparison between different vehicle types and different manufacturers. In addition to the fuel efficiency of a car, driving behaviour as well as other non-technical factors play a role in determining a car's fuel/energy consumption, CO2 emissions and electric range. CO2 is the main greenhouse gas responsible for global warming. A guide on fuel economy and CO2 emissions which contain data for all new passenger car models is available at any point of sale free of charge or can be downloaded under <http://carfueldata.dft.gov.uk>.

² Alternative G3 Roof Boxes are available

³ Item is non-Ford branded from an approved supplier

For any more information about any of the included Ford Accessories, or to view a full range of Ford Accessories visit www.ford-accessories.ie

This price list shows both original Ford accessories as well as a range of carefully selected products from third party suppliers, identified under that third party supplier's brand name.

Please note that third party supplier branded accessories do not come with a Ford warranty but are covered by the third party supplier's own warranty, the details of which can be obtained from your Ford Dealer.

Fitment of accessories may have an impact on your vehicle's fuel consumption.

Prices do not include fitting unless otherwise stated. Please refer to your Ford Dealer for fitted prices.

VRT Category A (EU Classification M1)

Most cars fit into category A and minibuses carrying no more than 8 passengers and driver. VRT is charges based on the CO₂ emissions of the vehicle when it was manufactured. The VRT rates are as follows:

Nitrogen Oxide (NOx) Emission Levy

Effective from 1st January 2021	CO ₂ Emissions (g/km)*	VRT Rate (non- diesel) €	NOX (mg/km)*	Amount payable per mg/km (€)	
1	0	50	7%	The first 0-40 mg/km	5.00
2	51	80	9%	The next 40 mg/km or part thereof up to 80 mg/km	15.00
3	81	85	10%		
4	86	90	11%	The remainder above 80 mg/km	25.00
5	91	95	11%		
6	96	100	12%		
7	101	105	13%	Diesel cap	4850.00
8	106	110	14%	Petrol cap	600.00
9	111	115	14.25%		
10	116	120	15%		
11	121	125	16%		
12	126	130	17%		
13	131	135	17%		
14	136	140	18%		
15	141	145	20%		
16	146	150	21%		
17	151	155	24%		
18	156	170	26%		
19	171	190	31%		
20	191	500	37%		

NOTE: The NOx levy will be applied to all VRT category A vehicles (passenger and SUVs). The new charges being introduced will mean an increase in VRT for older imported cars and these charges will be based on a NOx (Nitrogen Oxide) sliding scale on passenger cars.

This new tax will replace the 1% VRT Levy on diesel cars which was introduced last year and the NOx tax will apply to all new or imported cars from January 1st, 2022.

OTHER PRICING CONSIDERATIONS

Customer Order Price Protection

Ford's Price Protection Plan means that the price you pay is the same as the price on your order as long as you are prepared to accept delivery within three months, and in any event, as soon as your vehicle is available. Your Dealer has full details of the plan. Henry Ford & Son Ltd is not liable for changes in price caused by Government changes in tax rates or changes in other applicable legislation.

VAT

VAT is shown calculated at 23%. The total price of a vehicle, including factory fitted options and accessories fitted by the Ford Dealer, will be subject to VAT on retail sale.

Price Changes

This price list outlines Ford's Recommended On The Road prices and Recommended Retail prices. Please contact your Ford Dealer for final sale prices. This price list is effective from 24th June 2022, and supercedes all previous price lists. The recommended prices in the publication were true and accurate at the time of printing. You should, however, check details with your Dealer as there may have been changes to Ford's recommended prices in view of Ford's policy of continuous development. Ford reserves its right to change its recommended prices at any time. Change to government legislation or tax changes could result in a change to Ford's published prices.

ILLUSTRATIONS, DESCRIPTIONS AND SPECIFICATIONS

The product information in this publication was correct at the time of going to print. However, Ford's policy is one of continuous product development. The right is reserved to change specifications and colours of the models and items illustrated and described in this publication at any time. For the latest details always consult your Ford Dealer. Throughout this publication, wherever a feature is described as being an 'Option' or 'Option Fitment/Pack' etc, you should assume that it will be at extra cost to the base vehicle, unless specifically stated to the contrary. All models and colour combinations are subject to availability. Some images portrayed are of a pre-production model and/or are computer generated, therefore the design/features on the final version of the vehicle may differ in various respects. In addition, some of the features shown on the vehicles may be optional e.g. metallic paint. Please also note some driver assistance features and safety features described in this publication are designed to function using sensors, whose performance may be affected under certain weather or environmental conditions.
